

## reformXT<sup>™</sup>

### Create Mobile Forms with ReForm XT<sup>™</sup>

ReForm XT is a web-based Mobile Form Builder that provides non-technical users the ability to build custom mobile form applications to fit specific information gathering needs.

Simply use the online form builder to design your mobile forms and send them to your mobile device. Virtually any paper form can be replaced, including Route Delivery, QA Reports, Inspections, Surveys, Checklists, Time & Attendance, and many others.

### ReForm XT: Mobile Forms Made Easy

#### Benefits Include:

Improved quality, accuracy and completeness of critical business information for more informed decision making.

Immediate access to core information, including proof of delivery, tracking of assets, quality assurance, customer service and more.

Significant boost to business efficiency, while reducing operating costs by eliminating paper-based processes.

ReForm XT is a powerful resource that can operate within any industry. Whether your business is large or small, creating a mobile application to automate your business process will help save time, decrease errors, increase productivity, allow up to the minute information and help your business save money and increase revenues.

**To win your market, you have to know your market. Get ReForm XT, and gain the edge that only mobile business intelligence provides.**
